**SECTION 3: SECURITY OF INTERNET BANKING:****3.1: BRIEF ABOUT PASSWORD:**

You will receive Sign On/Transaction Password from the branch. You will compulsorily be forced to change the password for the first time. While changing the password and while subsequently using it, please note that...

- It must contain minimum 8 Characters and Maximum 16 Characters
- It must contain an alphabet ( A-Z or a-z ) and a number ( 0-9 ) and a special character ( @,\$,#,\* etc), all the three
- It should not contain all the letters used in user id
- It is case sensitive i.e., if password is in small letters use the same. If capital letters are used, it will not work
- For safety, password will be blocked, if attempt to Sign On fails for 3 times. ( If password is blocked, you may approach the branch by filling up the forgot password form available on the home page and you will be enabled and user will be able to access Baroda Connect, using the same password)
- While changing the password subsequently, user can't use any of the last 5 passwords. If not changed in 90 days, system will force to change the password. However, we advise user to keep changing the passwords, at a regular interval

**3.2 SECURITY OF PASSWORD:**

Please note that your password(s) are of utmost importance in Internet Banking. It is the only way to identify you, by the system. Therefore, its security is very crucial and we advise you as under...

- Please do not write these passwords anywhere
- If you feel someone knows any of your passwords ( i.e., it is compromised), please change the password immediately
- You should change the passwords at a regular interval ( you will be forced to change the password by the system, if you do not do so after 90 days )
- Do not share your user name and password(s) to anybody, including bank staff. ( Bank does not require your user id or password at any point of time. So if you receive any communications asking for this information please do not send your id and password(s))
- Do not use name of your spouse, children etc., as a password, since they are very easy to crack. Further, avoid using important dates ( wedding anniversary, birthdays of yourself/spouse/children etc.,) as your password. Relatives name or date of birth or address in your password

**3.3 OTHER IMPORTANT SECURITY TIPS:**

Do not leave your computer unattended while you are accessing Internet Banking services. Always type full URL i.e., address of the Internet Banking Web site- For Ex: <https://intl.bobibanking.com/intl/uganda/uganda.htm> or add this website in your favorites. This will avoid the need for typing the URL every time, you Sign On and subsequent risk of scouting. Please ensure that https is used while logging in. 's' indicates that this is secured site. You will always see a seeing this lock symbol, check if your website address is correct.
